

TIME TO START BIG CLEAN UP CRUSADE

National Bureau Is Helping Thousands of Communities Push the Attack.

READY FOR THE ONSLAUGHT

Headquarters of Great Organization, in Operation Five Years, Promotes Cleanliness, Comeliness, Cheerfulness and Conservation.

"Clean up and paint up!" Don't you hear the call? Indoors and outdoors. Work for each and all! Clean house and paint house. White or brown or red. Tidy up the back yard. And paint up the shed. Burn the alley rubbish. Send the tin can hence. After that—the thought is right—Fix that alley fence!

"Clean Up and Paint Up the National Capital!" shouted a Washington newspaper in type that was spread all over the top of a page, just a few days after Congress accepted Germany's gage of war. "Washington begins its spring cleaning and painting campaign," added the same journal, in type somewhat more subdued in tone. All Washington heard the call and heeded. It was the national capital's call to arms. Everybody volunteered. There was no age limit in either direction. Nobody was rejected because of defective teeth, ingrowing toe-nails, strabismus or housemaid's knee. The big army mobilized overnight. It armed itself—broomsticks in hand, brushes ditty, scrub-cloths, soap, water, rakes, paint cans and buckets!

No Lack of Preparedness. Washington did not get its orders from the White House or from the big building under the gilded dome at the top of Pennsylvania avenue. The nation's capital took its cue for this campaign from a middle Western city—St. Louis, headquarters of the National Clean Up and Paint Up Campaign bureau. There was no lack of preparedness, for the bureau had been in operation five years. It was simply a call to mobilization. A similar mobilization of local forces is taking place right now in thousands of other communities throughout the land—to promote cleanliness, comeliness, cheerfulness and conservation.

This American national campaign is an annual affair. It may be called perennial, for somewhere it is going on all the time. According to climate, weather, local conditions it is controlled and carried on. It is a modern crusade, Hometown being the Holy City and every good citizen being a Richard Coeur de Lion, a lion-hearted knight armed cap-a-pie with a rake and paintbrush, mop and varnish can.

There Are Many Advantages. Through this nation-wide movement health is being conserved, the sick list is being shortened, the death rate is being lowered. Through it the owners of city and town property are getting lower rates of insurance, for it is a fire-prevention propaganda as well as a crusade against dirt and disease. Property values are increased by this salutary work. Dwellings and apartments and flats which are made and kept clean and varnished and painted to spick-and-span effect sell or rent more readily than when left untidy and going to wrack and ruin.

Let Us Make Our Town Cleanest in the World

The cleanest town in the world is the best town to live in. Best because it is the healthiest. Best because it has the fewest fires. Best because it is the most beautiful.

This Clean Up, Paint Up campaign reduces fire insurance rates and fire loss; it increases property values; makes gardens of vacant lots; removes unsafe buildings; swats the fly; develops school and home gardens; makes cleaner alleys, yards and homes; educates children in fire prevention and clean up measures; plants trees, removes rubbish; makes more attractive and safer homes and places of business. It develops a community spirit that permanently ensures a cleaner, safer, healthier and more beautiful city.

Willing co-operation in this work will accomplish wonders—a magic transformation of our city will be the result. It will—will you?

Cleanliness is the best life insurance. The best fire insurance.

ANOTHER BIG TREAT IS COMING

(Continued from first page.)

groups. Her voice is of high range, brilliant and sympathetic quality, to which was added a distinctly artistic interpretative appreciation of the emotional demands. Several encores were demanded and graciously responded to by the singer.—The (Cleveland) Press.

Everywhere Mrs. Warner goes the verdict of the most discriminating of musical critics is unanimous that she is one of the best soprano singers yet developed. That she has consented a second time to visit and sing for southern Utah people, is a matter of much pleasure and satisfaction.

On the limited tour which she has consented to make, arrangements have been made for her appearance at Cedar City, Parowan and St. George, covering the dates of May 13 to 15, inclusive, her opening recital to be at this place on the date first named. She will be assisted by her own accompanist, and Professor Roy-lance will render one or more instrumental selections.

This is a musical treat that no devotee of the art can afford to miss. An opportunity to hear as great a celebrity as Mrs. Warner in our own communities is one which does not often come to communities of our limited population, and it is largely on account of the strong appreciation for the fine arts inherent here that this artist has been induced to come.

The recital will probably be held in the tabernacle, and the full program and further particulars will be published in these columns next issue.

SHEEP MEN NOT EXEMPT SAYS ADJUTANT GENERAL

The question having been raised with the Local Board as to whether or not men engaged solely in the occupation of raising sheep would come under the provisions of the law permitting deferred classification in some cases of registrants wholly engaged in agricultural pursuits, the matter was taken up with the office of Adjutant General at Salt Lake City, the following reply being received:

The directions from the Provost Marshal General are that if a man is actively, completely and assiduously engaged in the planting or cultivation of a crop, the Local Board may defer his call for the present.

Apparently, therefore, a man engaged in the sheep industry would not come within the class specified by the Provost Marshal.

Jesse Baker of Minersville was operated on at the Macfarlane Hospital Saturday for hernia.
